

PUTNAMVILLE NATIVE JOINS ILLINI STAFF

GERTRUDE HENDRIX NEW
RESEARCH ASSOCIATE
AT UNIVERSITY

Gertrude Hendrix, of Putnamville and Charleston, Illinois, has been granted a leave of absence from her position as Assistant Professor of Mathematics at Eastern Illinois State College, to become a Research Associate on the staff of the University of Illinois School Mathematics Project.

The UICSM project is one chosen this summer by the Carnegie Foundation to receive a grant of \$227,000 for use during the next three years. Miss Hendrix' research in learning theory and theory of instruction is already being used extensively in the project. Her duties for the coming year will consist of demonstration teaching of project courses and other types of assistance to teachers in the schools trying out the new materials. These schools, besides University High School at the University of Illinois, are Principia High School in St. Louis and the public high schools in Barrington, Blue Island, Pekin, and St. Charles, Illinois. With the addition of another Teacher Coordinator for 1957-58, a part of Miss Hendrix' time may be freed for continuing her basic research on the nature of verbalized awareness. This research, using horses as subjects, has been carried on independently by Miss Hendrix since its inception in 1937.

Miss Hendrix was graduated from DePauw University in 1926 with high distinction. She holds advanced degrees in both mathematics and education from the University of Illinois and has spent considerable time in special work on scientific method, symbolic logic, theory of signs, foundations of mathematics, and psychology of learning at the University of Chicago. Her best known publications outside the mathematics textbook and testing fields are: "New Clue to Transfer," Elementary School Journal, December, 1947; "Prerequisite to Meaning," Mathematics Teacher, November, 1950; and "Developing A Logical Concept in Elementary Mathematics," Mathematics Teacher, December, 1955.

Miss Hendrix has been a member of the faculty at Eastern Illinois State College, Charleston, Illinois, since 1930. She came to Charleston from the Mathematics Department at University High School, University of Illinois, and before that was Acting Principal of Crossville Community High School, Crossville, Illinois. She is best known locally, perhaps, as operator of Polycreek Stables at Putnamville during the summer months—a hobby turned into a summer vocation nine years ago in order to help support a strain of horses for use in psychological research.

Miss Hendrix is the daughter of Mr. and Mrs. J. W. Hendrix of Putnamville, and a niece of Mr. and Mrs. John E. O'Neal of Cloverdale. She assumes her new duties in Urbana on September 4th.

IN THE GOOD OLD DAYS

GORDON FAMILY—(From time to time, we will use the obituaries of pioneers as this information should prove interesting to descendants and others, who like to learn of the early history of Putnam County. The following obituary concerns John Riley Gordon, and was published at the time of his death on May 9th, 1888.)

"John Riley Gordon was born near Bainbridge, Putnam County, June 23rd, 1848. He received his primary education principally at the Bainbridge Academy and graduated in 1872 from DePauw University. In 1872-73 he was principal of the Bainbridge public schools. In 1873, he was elected assessor and real estate appraiser for his township, but before the expiration of his term he was chosen county superintendent for the schools of Putnam. At the close of his term as county school superintendent, he was again principal of the Bainbridge schools until 1877 when he began the practice of law, which he made his business, devoting, however, some attention to farming, a pursuit in which he was reared. In 1882 he was elected a member of the House of Representatives from Putnam County, also in 1884, and again in 1886. As a law maker he had shown much ability, having been admitted to the bar May 31, 1873. At the late Democratic convention in Indianapolis, he was chosen chairman of the State Democratic Central Committee. December 3rd, 1874, he married Miss Mattie A. Darnall, who with three children survives him.—Mr. Gordon's parents, James S. and Anna B. Gordon, who are still living, were the first settlers of Putnam County entering its borders in 1822."

HIGH ADMISSION—"The Helen Elythe Company showed to a small audience at the Opera House Saturday evening. The seventy-five and fifty cent rate kept several away." (1888)

TARIFF PROTECTION—"The following is taken from an article by N. T. DePauw in a late number of the North American Review. 'If it (reduction of the tariff) comes we must either stop our works or labor must stand it. Seventy-five per cent of the cost of production is labor. Our skilled workmen average \$17.04 per week, against \$7.05 in England, \$8.36 in France, and \$6.60 in Belgium.—The only labor we have ever imported was skilled men, whose knowledge was necessary to start the new industry. In Europe, father, mother and children were barely able by their united earnings to keep body and soul together. Our men earn enough to support their families and educate their children.'" (1888)

BAND CONCERTS—"The open air summer evening concert question is again being talked by our merchants. As soon as the newly organized band gets into active practice an effort will be made to give one public concert a week on the square. Prominent business men are interesting themselves in the movement and it will doubtless prove a success." (1888)

COMMENCEMENT—"The Greencastle high school will hold its ninth annual commencement Meharry Hall on the evening of May 25th, to which the public is invited. The class, numbering fourteen, is an excellent one. The names of the graduates are as follows: Anna L. Hepler, Bertha Fisher, Annie M. Torr, Octavia Edwards, Sarah Edwards, Florence Wilson, Annie Alspaugh, Grace Beck, Anna Porter, Lillie Bruner, Josie Eads, Mary Bicknell, Margaret Jordan and Bernice E. Hall." The State Department said "the information was based on evidence furnished by the Department of Justice that Petrov had attempted to obtain information vital to the security and defense of the United States."

The State Department said Petrov was dismissed by U. N. Secretary General Dag Hammarskjöld after the United States furnished him information on Petrov's spying.

Plan Test Case On Stored Corn

INDIANAPOLIS (UP)—The Indiana Farmers Union today pledged "moral and financial" support to a group of Knox county farmers in a test case to exempt corn stored under the government price support program from the Indiana personal property tax.

The IFU Board of Directors voted to set up a special fund to aid the court fight of Charles Thompson, Jr., who seeks a reversal from a county tax review board ruling that his stored corn is subject to the levy.

Farmers supporting the Thompson case contend ownership once the corn is stored rests with the government and that therefore the grain should not be taxable.

IKE'S SPEECH MAY BE NO. 1 DEMO TARGET

ATTACKED AS "WISHFUL
THINKING" BY PAUL M.
BUTLER

WASHINGTON (UP)—President Eisenhower's speech accepting renomination appeared today to be a No. 1 Democratic target.

Democratic National Chairman Paul M. Butler attacked it as "wishful thinking" and a "glossing over the failures."

Butler made the attack as the Democratic National Committee issued for party members a point-by-point "analysis" of Mr. Eisenhower's speech.

And Democratic presidential candidate Adlai E. Stevenson said the President's record doesn't match his "fine speech."

Butler called Mr. Eisenhower's speech a "skillful blend of wishful thinking and soothing reassurances." He said the President failed to give details on how he proposed to lead the country to a peaceful and prosperous future.

Instead, Butler said, Mr. Eisenhower used the "generalities which his advertising experts found so successful during the 1952 campaign."

He said wherever Mr. Eisenhower did get specific, he was "in sharp conflict with his record and that of his administration."

Nine Killed In Head-On Crash

WALL, S. D. (UP)—Nine persons were killed and a child was seriously injured Friday night in a head-on collision which telescoped both cars like accordions.

The motors of both vehicles crushed front seat occupants.

Authorities said the front seats "were only a foot apart" after the smashup on a high speed U. S. highway in the South Dakota "Badlands."

Dr. G. W. Mills, called to investigate South Dakota's worst known accident, said one of the cars had driven on the wrong side of the road.

"The cars were practically welded together by the impact," Mills said. "They were telescoped like accordions."

The accident on U. S. 14-16 occurred two miles west of here on a slight curve of the "speedway" which was opened to the public less than two months ago. Residents said motorists "used the highway as a speedway" because of its long straight stretches.

The vice admiral ordered all ships and aircraft taking part in the search only a short distance off the coast of Red China to return to their normal operations.

MR. EISENHOWER RELAXES AFTER GOP CONVENTION

PRESIDENT WILL LEAVE
FOR U. S. CAPITAL THIS
WEEKEND

PEBBLE BEACH, Calif. (UP)—President Eisenhower, taking full advantage of unusually good weather, today planned another assault on famed Cypress Point Golf Course—one of the toughest in the country.

The President planned to loaf Friday, but the warm sun, cool air and absence of wind lured him to the course, where he played 18 holes for the first time since he was stricken with ileitis last June 9.

His companions for the round were John McConne, former undersecretary of Navy; Samuel F. B. Morse, president of the Del Monte Properties on which the golf course is located, and Harry Hunt, president of the Cypress Point Golf Club.

The President, who was paired with McConne against Morse and Hunt, didn't mention his score. However, Morse said he himself had an 89 and the President "one or two strokes more."

"The President played very well," said Morse. "If he had been a little sharper around the greens, he would have had an excellent score."

Morse said he and Hunt won the match and added that all members of the foursome played the famous 16th hole "the short way." He said they each took four on the rugged three-put hole and that none of them lost a ball in the gaping Pacific Ocean.

The group, which used electric carts most of the way around the course, was accompanied by Mr. Eisenhower's physician, Maj. Gen. Howard M. Snider. Morse said the President seemed a little tired at the end of the 18 holes, but appeared in good health.

The President was expected to leave for Washington either today or Sunday, but Hagerty told newsmen Friday Mr. Eisenhower would stay "probably until Monday."

Dr. Kinsey Dies At Bloomington

BLOOMINGTON, Ind. (UP)—Dr. Alfred C. Kinsey, 62, a university professor who became perhaps the world's foremost authority on human sexual behavior, died today in Bloomington Hospital.

Kinsey, who gained fame as the author of two volumes on the personal and private habits of men and women, died at 7 a. m. CST, hospital spokesman said.

He was taken to the hospital three days ago suffering from a heart condition and pneumonia. For several months, Kinsey had been in failing health and spent increasingly less time in his office at the Institute for Sex Research on the Indiana University campus.

Kinsey's name became a household word in 1948 when his first world-famous "Kinsey Report" on sex behavior of the human male was published as a best-selling book. A second volume, on female sex behavior, was published in 1953. It made him even more famous than the first.

Woman Murdered, Deaf Mute Hunted

GAINESVILLE, Fla., (UP)—A county attorney's wife was shot to death and another woman was fired on Thursday night, touching off a police search for a deaf mute who threatened a county judge and the husbands of both women.

Deputy Sheriff L. J. Hindery said officers were looking for Phillip Singer, 41-year-old mute who was fired last April as maintenance man at the county club here. The club is managed by Earl Sasser, husband of a woman who was fired at and missed.

Police did not know whether Singer was in this area Thursday night.

The body of Mrs. Osee Fagan, attractive young wife of the Alachua County attorney, was found late Thursday night by her husband when he returned home.

The body was in front of their house, a bullet hole in the neck. She apparently had been shot about 20 minutes after a white man fired through the screen door of the Sasser home. The bullet missed Mrs. Sasser by about two inches and lodged in a wall.

Mrs. Sasser, who had gone to the door to investigate a noise, slammed the door and ducked but the assailant fled after the one shot.

Mrs. Sasser said she could not identify the man except that "he appeared to be a white man."

Hindery said Fagan successfully prosecuted Singer on trespassing charges following the man's discharge and that Judge H. W.

McDonald sentenced him to 25 days in jail and a \$100 fine. The officer said Singer threatened to kill Judge McDonald.

"Wib" as he was known to his friends and neighbors was a very kind and helpful person, always ready to lend a helping hand to anyone that ask him for help.

He had worked at the Zinc Mill for over 20 years. He was a member of the Fathers Auxiliary of Gen. Jesse M. Lee Post 1550 Veterans of Foreign Wars.

He is survived by the widow, Irene McCamack Crawley, three sons, Glenn, Indianapolis and Randall and Jack of Crawfordville; three daughters, Arlene Mayo, Stilesville; Frances Whitaker, Rockville; Louise Williams, Greencastle; his mother, Mrs. Mary Crawley; a sister, Mrs. Bessie Earley; four brothers, Glenn, Indianapolis, Morris Plainfield; Chester and Eugene of Greencastle. His father, a brother and a sister and one son preceded him in death.

I cannot say, and I will not say that he is dead. He is just away. With a cheery smile, and a wave of the hand,

He has left us dreaming how very fair, It needs must be, since he lingers there.

And you, oh you, who the wildest yearn For an oldtime step—and the glad return,

Think of him faring on, as dear In the love of there as the love of here,

Think of him still as the same, I say, He is not dead—he is just away.

**2 Men Killed,
Train Derailed**

SOUTH BEND, (UP) — Two South Bend men were killed today and 11 cars of a New York Central railroad freight train were derailed in a grade crossing accident.

Walter Kanterowski, 20, driver of an automobile which struck the train as it rumbled along the rails at the west edge of the city, and Francis I. Ramenda, 28, his companion, were killed.

Police said their automobile struck the 19th car in the train and the force of the collision caused derailment of a series of cars in the middle of the train.

The crossing was unprotected, authorities said. The accident occurred on Ind. 123.

None of the train crew, including engineer Warren West and conductor Glenn Maxfield, both of Kankakee, Ill., was injured.

WICKARD HURLS CHARGE
FRENCH LICK, Ind. (UP)—Former Agriculture Secretary Claude Wickard charged Friday night the Eisenhower administration has wasted 11 million dollars in Indiana alone on the soil bank plan.

The Democratic senatorial nominee told newsmen at the 76th annual Indiana Democratic Editorial Association meeting the soil bank is used to influence votes. But he said it has not reduced Indiana farm production as intended.

Meanwhile, the Indiana Democratic State Committee met today amid speculation that governor nominee Ralph Tucker would ask for removal of Charles Skilken as state chairman.

STOLEN CAR BURNS

INDIANAPOLIS (UP)—Authorities today investigated the theft and wrecking of a convertible registered in the name of an Indiana Bureau of Motor Vehicles branch manager.

The car was found destroyed by fire southwest of here Friday. Also lost were \$3,384 in cash and checks which the branch manager, William Jessup, 39, Nashville, said he had planned to deposit in a bank.

The car was stolen from in front of a south-side bank.

GOOD TAX HABIT

World Of Religion

Bouroum Bouroum is the name of a village in French West Africa, not far from its frontier with the Gold Coast, where the Rev. C. S. Benington and his wife have recently arrived to undertake new translation work into the local language, Lobi. Some years ago, Mr. Benington prepared St. John's Gospel in Lobi. Now the National Bible Society of Scotland has sent him out for five years in the hope that he may find it possible to complete the New Testament. The Society will then arrange for its printing. There are not very many Lobi Christians yet, but it is believed that the provision of at least the New Testament in their language will help greatly in the establishment of a church among them.

A new organization "engaged in research and education in all relationships between religion and health, and especially mental health," has opened offices at 2 East 103rd Street, New York 29, N. Y. Named "The National

'Head... Heart'

INTRODUCING the Republican platform to the convention in San Francisco, Senator Prescott Bush of Connecticut tells delegates that "government must have a head as well as a heart" and "we must stay strong."

Academy of Religion and Mental Health," its president is Kenneth E. Appel, president of the Joint Commission on Mental Illness and Health, professor of psychiatry at the University of Pennsylvania, and past president of the American Psychiatric Association. On the advisory council are theologians and clergymen of the Roman Catholic, Jewish, and Protestant faiths. The Academy will sponsor research in relationships between religion and mental health, conferences, scholarships, publications, as well as consultative and advisory services. It has been elected to the membership of the World Federation for Mental Health. The Rev. George C. Anderson is director.

There are 600,000 Americans in a normal year living abroad—in businesses, the professions, diplomatic services, etc. (not including the military)—and a large percentage of them are Protestants, reports Dr. Robbins W. Barstow of the National Council of Churches. He finds that in 35 overseas nations they have built 70 Protestant union churches. Most are cosmopolitan in congregational membership: one in Hong Kong, China, have members of eleven nations and represent nine different denominations. Three new American pastors have recently been named to overseas union churches, Dr. Barstow reports: the Rev. Dr. Herman F. Allen of Calvary Presbyterian Church, Berkeley,

Cal., will go to the Community Church of Tehran, Iran, where he succeeds the Rev. Leon A. Dickinson, first full-time pastor of the Tehran congregation; the Union Church of La Paz, Bolivia, will have as its first full-time pastor the Rev. S. Allen Watson (Disciples of Christ), executive director of the Elgin, Ill., Council of Churches; and the Rev. Charles B. Hanna, of the First Presbyterian Church, Potsdam, New York, will serve as pastor of the American Church of St. Andrews, Athens, Greece.

"Christians have a testimony to make at points which political measures and the succor of physical wants cannot touch," says a recent statement of the World Council of Churches. "The overwhelming need in the Near East—especially amongst the refugees—is liberation from fear and frustration and from the bondage of bitterness and hate. Acts of justice—imperative as they are—can only go part of the way towards meeting these things. While the cry for justice must not go unheeded, there are claims for justice which conflict with one another. The state of the world is so riddled with sin and its consequences that satisfaction for every claim is beyond human achievement. The human dilemma into which the search for justice takes us can only be resolved in that love of God which is shed abroad equally upon His children, whether they be Jews or Arabs. In the same

redeeming love there is alone the power which can match and transform the demonic influence of hatred and bitterness."

The Church in West Pakistan has "rallied splendidly to the help of their stricken brethren" who suffered in recent floods there, according to the Rev. Clyde B. Stuntz of the committee on relief and rehabilitation of the West Pakistan Christian Council. "We asked for a gift of 10,000 rupees from the Church and already have received 15,000 rupees beside outright gifts of clothing and quilts for which no cash value was assigned. Sewing groups have been formed in most centers, preparing children's clothing, quilts, or any other work need, thereby making our funds go much farther. The participation of the church in this great enterprise has helped in bringing home the solidarity of the Christian fellowship."

HITS THE BEMS

FORMER Gov. Thomas E. Dewey tells Republican delegates that the "mess in Washington," the 1952 battle against the Democrats, has been cleaned up. He also called ex-President Truman "a petulant president" in his speech at the GOP convention.

The bidding:

Mr. Champion was on lead and,
not wishing to lead away from
any of his honors in spades,
hearts and diamonds, he opened
his fourth highest club, the trey.
The five was played from dummy
and it was up to Mr. Muzzy.
Without hesitation, he went in

As you can see, Mr. Cham-
pion's analysis was correct. Mr.
Muzzy claimed he went up with
the ace of clubs because he was
afraid Mr. Dale might have the
singleton queen. But, as Mr.
Champion pointed out, the rule of
eleven proves that to be impos-
sible.

APPLY RULE
Apply the rule, Mr. Muzzy
should have deducted three (the
number of the card led) from
eleven. The resulting figure
(eight) represents the number of
clubs higher than the trey, out-
side of Mr. Champion's hand.
Now, six clubs higher than the
trey were in Mr. Muzzy's hand
and the dummy. So Mr. Dale
must have two clubs higher than
the trey.

That was all Mr. Muzzy
needed to know. If he had played
his ten of clubs at trick one, Mr.
Dale would have had no place to
park his rising heart.

As a last desperate attempt at
an alibi, Mr. Muzzy argued that
his partner's trey of clubs lead
might have been a singleton in
which case the play of the ace
and an immediate club return
might have been the only way to
defeat the contract.

"Nobody believes that," said
Mr. Champion nastily. "You didn't
return a club at trick two,
did you? And besides, if I had
one club, then Dale had six, and
he would have bid clubs some-
where along the line."

BALANCE Is Essential
if you want to stay on top...
Keep your life BALANCED by attending
Sunday School
at the CHURCH of the NAZARENE

What do you think of...
when you see a Church?

Have you looked at a church lately?
To almost everyone, the sight of a slender steeple
raised to the sky evokes certain emotions—awe,
perhaps, nostalgia, maybe—the sense that by not
going to church lately, you've been missing some-
thing!
Next time you see a church, take a good look...
and let yourself really feel what you see. If that
makes you decide not only to look at the outside
but also to go inside, that will be all to the good.
For no matter how lovely a home you may live in,
it can't compare with God's House. If you open the
door, you'll find that, no matter how long you've
been away, the welcome is warmer and more won-
derful than you'll find anywhere else.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for
the building of character and good citizenship.
It is a storehouse of spiritual values. Without a
strong Church, neither democracy nor civilization
can survive. There are four sound reasons why
every person should attend services regularly
and support the Church. They are: (1) For his
own sake. (2) For his children's sake. (3) For the
sake of his community and nation. (4) For the
sake of the Church itself, which needs his moral
and material support. Plan to go to church regu-
larly and read your Bible daily.
